Invitation

Welcome AEPSE 2015

The 10th Asian-European International Conference on Plasma Surface Engineering (AEPSE2015) will be held from Sunday, September 20 to Thursday, September 24, 2015, in Jeju, Korea, which is an exotic UNESCO world heritage island. The AEPSE 2015 is organized by Asian Joint Committee for Applied Plasma Science and Engineering (AJC-APSE) in close collaboration with European Joint Committee on Plasma and Ion Surface Engineering (EJC/PISE).

The AEPSE conference has attracted growing interests as one of the global nominated open forums for contributing to scientific and industrial progress in applied plasma science and engineering fields in Asia and Europe as well as other countries since the first conference, which had commenced in 1997 in Seoul, Korea. Especially, leading the world of industries such as semiconductor, digital devices including display and touch panels, automobile industry etc. in East Asia, a new paradigm of scientific and technological innovation in plasma surface engineering is required for further rapid advancement of the leading industries in advanced materials and processes and for expansion of new technologies as well as market.

We would like to cordially invite you to attend the AEPSE 2015 in Jeju, Korea, for open discussions and collaboration opportunities for advancement and innovation in scientific and technological topics related to plasma surface engineering, emerging core technologies and/or industries as well as new prospective market.

Masaru HORI
Chairman of AEPSE2015

Industrial Workshop (15:00~18:00):

Advanced Industrial Technology for " Mobility "

- Chairs : one from SVC and one from AJC (TBD)
- This workshop is jointly organized by AJC-APSE and Society of Vacuum Coaters(SVC) in the United States on recent advance in application and future perspective of plasma technology dedicated for environment friendly and energy efficient mobility in transportation including automobile etc.
- The workshop is arranged by invited talks of highly qualified expertises in plasma technology development and application from industries.

Industry-Academy Collaboration Night (18:00~21:00)

- Special program will be organized for promotion of collaboration and net working between industry and academy communities at the industry exhibition area. Beers and meals including drinks and snacks are served by industry in free of charge. Free gift event is also held by sponsoring companies. All registered attendees are solicited to join this event.
